Hi Peter,

Yes, I remember working on something similar very recently. I'll check my files and get back to you. I'm also cc'ing the folks that worked on the Bad River issue. Anyone else in the cc list have the write-up that we can quickly provide to Pete Cassell?

This is not a new issue. I think Tinka and Anne worked on a statement several weeks ago.

Subject: Media Inquiry: Bad River Band Polluting Lake Superior

Peter,

I am a reporter with KBJR 6 and Range 11 in Duluth, MN. Saw an article about how the Bad River Band in Northwest Wisconsin has been polluting Lake Superior with E. Coli and now need a new permit. Also, this particular article made it sound like they got to write their own rules and are still violating in violation of the Clean Water Act. Would like to know if this is true and what data I could have to prove they are dumping these wastes into the water shed.

Thanks,

Kati Anderson
